WASHINGTON MASONS GO TO BALTIMORE

Veiled Prophets Exemplify Ritual for the Benefit of Yezd Grotto.

Baltimore, Md., April 18.—Kallipolis Grotto, Mystic Order Veiled Prophets of the Enchanted Realm of Washington, sent about 200 members to Baltimore

last night and put on a ceremonial of the order ritual in full form in the concert hall of the Lyric for the benefit of the recently organized Yezd Grotto of this city. The work of the Washington degree team was highly commended by the entire Baltimore membership, which will begin work now so that the ceremonials in future will be staged without help from out of the city.

The visiting and local members marched from the electric line station to the Lyric, headed by the Kallipolis Grotto band, and after the ceremonial all marched back to the Hotel Renner,

where a banquet was served. The official govt. guests, including the Lyric and electric lights, attracted much attention along the line of march. Monarch Lippé, of Kallipolis Grotto; Monarch Albert O. Boschen, of Samia Grotto; No. 36, of Richmond, and State's Attorney William J. Broening, were among the speakers at the banquet.

NOTES FROM WEST VIRGINIA.

Charleston—Work has been resumed at the plants of the Banner Glass Company and the Banner Window Manufacturing Company. The plants were closed down early in March. Three hundred men are employed in the two plants.

Wheeling—The Belmont mill of the Wheeling Steel and Iron Company has resumed operations after mill No. 3 had been shut down for the past several days on account of the large belt going to pieces. About twenty-five men were laid off until another belt could be ordered and replaced.

Fulton—County Assessor W. A. Hanke has finished the work of assessing Fulton, and finds a noticeable increase in every item but children. It seems that Fulton is joining in the race suicide.

Grafton—Following a conference of General Manager Grafton and other Baltimore and Ohio officials here, orders were issued to put 100 additional men to work in the local engine repair shops as a result of improved business conditions following the start of Lake coal trade at the rate of 400 cars per week from this section of the State.

Mothers Tell of Mother's Friend

Experience is or should be our best teacher. Women who have obeyed the highest and noblest of all mercies, the struggle for the life of others, should have a better idea of helpful influence than those who theorize from observation.

At any rate when a prospective grandmother urges her daughter to go as she did—to use "Mother's Friend," there is ample reason to believe it the right kind of advice. Its purpose is to furnish planity to the muscles, to take away the strain on the cords and ligaments, to relieve the tension of nerves and tendons so apt to provoke or aggravate nausea, morning sickness, twitches of the limbs and so on. It is applied externally.

Although, in the nature of things, a woman would use "Mother's Friend" but rarely, yet so effective has it been found that this splendid remedy is on sale in most drug stores throughout the United States. It has been prepared by Bradford Regulator Co., 240 Lamar Bldg., Atlanta, Ga., and advertised by us for over twenty years. Ask at the drug store for a bottle of "Mother's Friend." It is worth while.

WAR DIRT IS BEGINNING TODAY

Army of Workers Will Get Busy with Mop, Brush and Rake.

BOY SCOUTS WILL HELP

Campaign Has Indorsement of Most of the Civic Organizations of the District.

An army of workers with mop, brush, and rake will start in southeast Washington this morning and swing about the District in a two weeks' campaign against dirt and untidiness.

The whole "Clean-up Paint-up" movement is to be as systematic as a woman's spring house-cleaning. The District has been divided into sections, each surveyed according to the points of the compass. Three days will be spent in each zone, and it is believed that at the end of the twelve days the city will be as clean as the picture of an advertising soap manufacturer.

While each householder is expected to clean off his own property, and even to assist his neighbor a mile, a general band of workers under the leadership of the District officials and superintendents from the clean city committee will cart away the rubbish accumulated in the individual efforts and improve the appearance of alleys, unoccupied lots and out-of-the-way corners of the District.

Among the assistants will be delegates from various Boy Scout troops, the Camp Fire Girls have detailed members for certain duties in the work.

The campaign has the indorsement of the majority of the civic organizations of the District and of practically all the trade and labor associations. The Master House Painters and Decorators organization is active in the work.

Asks for Financial Support.

W. H. Richardson, chairman of the clean city committee, yesterday issued the following statement:

"The clean city committee is entering upon its 1915 clean-up campaign in the interest of a healthier, cleaner, and a more beautiful Washington. It is a new movement and needs no introduction. The beneficial results are so apparent and pronounced that it needs no argument to commend its work to you and the public.

"We are appealing to you for financial support as we have no means with which we can carry on our work except what we receive from gratuitous contributions. The officers are giving their time and services freely, but we must have money with which to carry on our work. Last year the citizens of Philadelphia contributed over \$12,000 to their committee. We have no connection with the commercial committee of painters, only as we indorse the paint-up idea, and in return they gave us a contribution for our work. Any amount you contribute will be thankfully received and acknowledged."

ELECTION JUDGES MAY BE JAILED FOR ASKING VOTES

New Primary Law Has Real Teeth, According to Ruling of the Attorney General.

Richmond, Va., April 18.—Officers of election and politicians in many counties in the State will find occasion to worry, in an opinion just rendered by Attorney General Pollard on the new law which makes it a misdemeanor for any election officers to attempt to influence a voter.

Requests for interpretations of the different new provisions of the election law are received almost daily at the attorney general's office, and Mr. Pollard has been compelled to give much time and thought to the numerous questions propounded.

The opinion on the provision forbidding election judges and clerks to solicit support for candidates of their choice relates to the penalty that may be imposed where a conviction is secured in such a case. The new law, which pronounces solicitation by election officers a misdemeanor, carries no specific penalty. The ruling of the attorney general on that point is given under another statute, which provides that where no specific penalty is imposed, it is left to the discretion of the trial magistrate to impose a fine or a jail sentence or both.

It is a matter of common knowledge that in many counties voters are influenced by judge of election, and that in many instances judges of election are chosen with the implied understanding that they are to use their influence with voters for the benefit of candidates.

China, which is believed to have the greatest deposits of iron ore in the world, is beginning to export pig iron.

Sketches of Little. NEW YORK City Intyre.

(Special Correspondent of The Washington Herald.) New York, April 18.—Helen Green has returned to her beloved Broadway, given it the once over and immediately beat it back to the snow-capped hills of Alaska.

As Helen Green, the wife of Bert Green, the vaudeville star, she used to write the stories of Broadway for the Morning Telegraph—stories of all-night long stunts, Mrs. De Shire's theatrical boarding house, curb arguments, and the like.

Then five years ago she married a man named Van Campen and took the name of Helen Van Campen and she pooled their earnings, they bought an Alaska gold mine and went to live at the end of the world. For a time the life on the writer, who knew all the phases of New York life, from the reeking soup houses of Chinatown to the glided cafes of Times Square. Finally she became interested and then she learned to love it, and now she wouldn't return to New York for all of Broadway.

She saw the same old crowd, the same old first-nighters in the Death Watch of the opening performance. The only thing new was the damant, where turbaned Syrians dole out plasticine and awfully salty—to make the crowds thirsty so they will buy more and stay late.

Fred Donaghy tells a good story about Wilton Lackaye, the actor, which is going the rounds. Lackaye had invited a San Francisco editor to dinner.

"How about 7 o'clock?" asked Lackaye.

"I can't," the editor said. "We have our editorial conference."

"Conference?" Lackaye echoed.

"Yes, we all get together every night

DENIES REFORM WILL SAVE.

Dr. Stocking Says Spiritual Standard Should Rule.

"This is the age of reform, but most of our crusades are crusades for material changes, changes affecting external life," said Rev. J. T. Stocking, pastor of the First Congregational Church, in his sermon yesterday. "We are talking about a minimum wage, about workmen's compensation laws, about better housing, about old age pensions and a hundred other things, but all of these things are simply asking for a redistribution in one form or another of the silver and gold of the world or the things which may be purchased with silver and gold. There are many men today who think the millennium is going to come and social salvation if we have a distribution of the silver and gold of the world, but he who wishes to better the heart and life today knows that that is not the great thing of life.

"There is a greater thing than that. There must be moral and spiritual help. What we need is revaluation of the things that can never be purchased with silver and gold. The socialistic plan will fail because it puts too much faith in silver and gold. Those are not the things that are going to save the world. The men who are going to save the world are the great benefactors are not those who have given of silver and gold. They are those who have given of vision and ideals."

PULLMAN CALLS BACK SPECIAL POLICEMEN

Nine Transferred from Detail Work in D. C. Buildings to Regular Patrol Duty.

An order materially affecting the safeguarding of the District by the Metropolitan police force has been issued by Maj. and Superintendent of Police Raymond Pullman and goes into effect this morning with the recall of nine men from special detail work in various District government offices and their assignment to regular police duties. It is predicted the order will be followed by others of a like nature, until practically all of the fifty detailed policemen will be put on the street as patrolmen.

"They haven't been doing police work, and we need policemen on the streets too badly to have them doing work elsewhere," Maj. Pullman said.

The new order provides for the following transfers: Policemen Owens and Turner, from Emergency Hospital; Policemen Doolin and Metz, from Casualty Hospital; Policemen Morris and Bruner, from the Juvenile Court; Policemen Boyd and Smith, from the District office; Policemen Witsatt, from the District government disbursing office; Policemen Meton, from the license clerk's

All nine of the men heretofore doing clerical work will be assigned to patrol duties. There are thirteen police stations in the District.

The police department has furnished more than fifty policemen to other departments of the District government and the special force of guards at the White House for several years. The vacancies in the ranks had never been filled. The aggregate of the salaries of the nine men is \$18,500.

There are twenty-five District policemen at the White House. It was suggested at one time they be recalled, to be substituted by United States soldiers, the logical guardians, it is pointed out.

WEST VIRGINIA CANNOT BORROW ANY MONEY

Sum of \$750,000 Required to Carry on Government of State.

Newly Dry.

Charleston, W. Va., April 18.—Gov. Hatfield, in a statement recently, declared that West Virginia needed \$750,000 to carry on its government, and that he could not legally borrow this amount, as suggested by Attorney General A. A. Lillie, because the State would be unable to repay it within fifteen months, the statutory time. In support of his contention the governor made public a statement of finances prepared by E. A. Dover, State accountant.

Because of the failure of the late legislature to pass the necessary appropriations, State salaries and many other bills for April are not being paid.

The governor conferred with five senators, who supported his financial plan, with a view to calling another special session of the legislature to provide the necessary revenue. No announcement was made after the conference.

TWO DIE AS AUTO PLUNGES

Car Leaps Embankment, Killing Man and Wife.

Arlington, N. J., April 18.—Running at terrific speed down a steep hill near here today, the automobile of Dr. T. F. Terhune, of Passaic, plunged over an embankment. Mr. and Mrs. Terhune were killed instantly. Roger Terhune, their 5-year-old son, may die.

The car was driven by Dr. Terhune, who was on his way to a conference with the governor.

The car was a 1914 model, and was traveling at a speed of about 40 miles per hour when it plunged over the embankment.

The car was found by a passerby, who called the police.

The car was found in a field, and the bodies of the victims were found nearby.

The car was found to be in good condition, and the accident was attributed to excessive speed.

The car was found to be a 1914 model, and was traveling at a speed of about 40 miles per hour when it plunged over the embankment.

BORAH WILL NOT ASK NOMINATION

Idaho Senator Says He Does Not Hanker for Presidency in 1916.

SENATE BEST FOR HIM

Admits He Would Accept Designation by G. O. P., but Will Speak His Mind on Western Trip.

Before leaving for the West, Senator William E. Borah, of Idaho, said that he was not a candidate for the Republican nomination for President and would not become one.

"If by chance the party should nominate me," he added frankly, "I would accept, of course. To pretend or to intimate otherwise would be absurd. But I shall not seek the nomination nor strive in any way, directly or indirectly, to obtain it. Nor have I the slightest expectation of its coming my way. In point of fact, I should not consider the matter worth mentioning at all but for the inquiries that I have received from many sources and for the circumstance that I am going to make a few speeches that I promised to make and should have made long ago if we had not been kept continuously in Washington.

"The sole purpose of this statement is to make it quite clear to those who may come to hear me that I shall speak my convictions as a liberal Republican—as a free man, wholly unhampered by political aspirations.

"The United States Senate affords a forum large enough for anybody and it is there that I feel I can do whatever I may wish to do in public service. In any case, I am content to stay there as long as my State is content to have me.

"There is no improbability, of course, in becoming a candidate. In fact, it will soon be, if it is not already, necessary to avow one's candidacy under the spreading primary system. But a candidate is a slave and I prefer to keep my freedom to speak as plainly as I see fit especially at a time like this when plain speaking seems likely soon to become necessary if the Republican party is to be restored to power."

HUBBY TELLS WHY HE DELIGHTS TO HUG 'EM

Kissed Neice and Smiled at Others, Wife Who Wants to Separate, Says.

New York, April 18.—Whether a wife is entitled to a decree of separation because her husband is a flirt will be decided in the Supreme Court in a suit filed yesterday by Mrs. Lisbeth Katzenstein, of 559 West 144th street, against Adolf Katzenstein, a machinery manufacturer at 40 Church street. The couple were married in 1905 and have no children.

The plaintiff says her husband's cruel treatment began three years ago when he hugged and kissed her neice, who was visiting at the Katzenstein home. Then, she asserts, he flirted with a woman on the train when they were going to Washington and gave her his address. While the couple were in an uptown restaurant last year Katzenstein smiled at a woman at an adjoining table, as a result of which the woman's companion scolded her and she replied that "the old man kept staring at her," according to the complaint.

Mrs. Katzenstein says she finally asked her husband why he flirted so much and that he replied, "When I look at a woman in the blood rushes through my veins, my muscles twitch, my heart beats, and nothing else matters." The plaintiff also alleges that her husband is subject to violent outbursts of temper, and in one week he smashed his eyeglasses, broke his cane, tore up a number of his own shirts and also destroyed some money in bills.

Mrs. Katzenstein says that in January last her husband came home in a rage, drank a quart bottle of cognac and crawled on the floor, scratching at the doors. He threatened her with a razor and slashed himself across the chest, she asserts, and then turned on her and in her room without lighting it, finally he chased her with a heavy picture in his arms, fell down and smashed the picture to bits.
